STEM Summer camps and Family Memberships Scholarships Available

Twelve Benzie County Families will receive STEM Scholarships

Thanks to the generosity of the Seabury Foundation and the Grand Traverse Regional Community Foundation, twelve Benzie families will be granted a unique opportunity of FREE annual membership to COGNITION or the Great Lakes Children's Museum or their choice of a Summer STEM Camp! Annual membership and Summer STEM camp opportunities are first-come, first-served. These Grants will allow six children to attend Summer STEM Camps and six families to receive annual family memberships of their location choice.

Show your support to area youth with North Ed

Is it important to you that local students participate in STEM-related activities? On May 19th, 4 p.m.-8 p.m., North Ed invites the community to demonstrate their support for students by attending it's STEM Symposium. Through project presentations, students in our five-county region showcase their STEM learning and projects, participate in friendly competitions, and speak with the community about how STEM has affected their lives. Community members would ask the students questions regarding their projects and challenge them to understand their work. The event will occur at Northwest Education Services Career Tech 880 Parsons Road, Traverse City, MI 49686. To learn more about this event, check out the link below.

Stay in Flight with the Young Eagles

Did you miss the opening 2022 season on May 7th? You still have time to register for Summer 2022. These monthly activities for youth ages 8-17 include aircraft and aircraft component build activities, visits to aviation-related facilities that provide a unique insight into the world of aviation, and a behind-the-scenes look at flying an airplane over Traverse City. The Young Eagles Program's goal is to introduce as many interested individuals as possible and help to provide the means to unlock the airport fence, open the hangar doors, and share an unforgettable day with our future aviators. It's the only program of its kind, with the sole mission to introduce and inspire kids in the world of aviation and STEM-related activities. Complete your registration today to learn more about aviation and earn your wings as a young eagle pilot.

"It's a good way to bring Science into the house and make it interesting."

SARAH F, PARENT

Become a Junior Master Gardener

Is your child interested in being outside, exploring gardens, wildlife, and insects? The 4-H Junior Master Gardener Club is the perfect summer program! For youth from 3rd to 6th grades, the Botanic Garden partnered with the local 4-H to offer this FREE program. Over three weeks, participants will explore the Junior Master Gardener topics through fun, hands-on activities. There will be a focus on plants, soils, insects, and wildlife habitats. Act fast as registration deadline is June 10th. Use the link below to learn more about dates, times, or registration.

A Summer Camp All About Art

Summer can be stressful for families as they worry about where their children will go when school ends. Our friends at Arts for All have space left for all age groups for their July Happy Camper Days Summer Camp. Art for All Summer Camp offers classes that are accessible and inclusive, making it possible for people with all abilities to participate. Art for All believes art is the universal language that brings everyone together in the creative process. Happy Camper Days Summer Camp will offer fun, creative, and engaging art education classes.
